

Environment Policy

TRL Krosaki Refractories Limited ("TRLK") is committed to reducing environmental impact through conservation of natural resources and latest cutting-edge technology to improve air quality, water quality and waste minimization. We uphold environmental protection by complying with all applicable laws and ISO 14001 standards, preventing pollution and maintaining transparent reporting. Defined environmental targets and ongoing performance tracking reinforce our environmental management systems and drive continuous improvements in efficiency. This Policy is endorsed by the senior management of TRLK & is aligned with the UN Global Compact (Principles 7–9), the ISO 14001:2015 Environmental Management Systems standard and the Global Reporting Initiative (GRI) Standards.

Scope

This policy applies to TRLK plants under operational control and to all employees and contractors working at TRLK sites.

Our Commitments:

- Comply with all applicable environmental laws, rules, regulations, consent conditions and statutory obligations, including requirements prescribed by Pollution Control Boards and other regulatory authorities.
- Prevent, control, and reduce pollution of air, water and land through effective operation, maintenance of pollution control systems such as ESPs, bag filters, effluent treatment plants and sewage treatment facilities, ensuring emissions and discharges remain within prescribed limits.
- Promote judicious use of water and raw materials by optimizing consumption, recycling treated wastewater and adopting good housekeeping practices to minimize losses, spillage and leakage.
- Minimize generation of hazardous & solid waste at source and maximize reuse & recycling of waste, recovery of material from waste within the process wherever technically feasible. Hazardous waste shall be handled, stored, transported and disposed off only through authorized agencies in compliance with applicable rules.

- Maintain continuous monitoring of ambient air quality, stack emissions, and workplace environment through online AAQ and CEMS systems, and ensure timely corrective actions wherever required.
- Enhance green cover through systematic plantation of environmentally compatible species within and around the plant premises and ensure high survival rate through proper care and monitoring.
- Implement projects and initiatives aimed at strengthening pollution control infrastructure, improving environmental performance and adopting cleaner and safer technologies.
- Build environmental awareness & competence among employees, contract workmen and stakeholders through regular training, communication and engagement programs on environment, health and safety.
- Periodically review environmental objectives, targets and performance to drive continual improvement of the Environmental Management System in line with business growth and sustainability goals.
- Integrate the Plan-Do-Check-Act (PDCA) cycle into its Environmental Management System to drive continuous improvement through audits, reviews, stakeholder feedback and transparent performance disclosure.
- Conduct environmental risk assessments to identify potential risks and implement appropriate mitigation measures accordingly.
- Set, monitor and publicly disclose measurable environmental targets and key performance indicators covering greenhouse gas (GHG) emissions (Scope 1, 2 and Scope 3), energy intensity, freshwater withdrawal, waste generation and air emissions, in line with our net-zero ambition for 2050 and applicable science-based pathways.
- Identify, assess, and respond to climate-related physical and transition risks and opportunities and embed climate considerations into capital allocation and operational decision-making.
- Protect biodiversity and avoid, minimize or offset adverse impacts on ecologically sensitive areas and protected habitats in and around our operations.

Governance Mechanism:

The Divisional Head – Environment is responsible for implementing and monitoring this Policy, driving continuous improvement, designing and executing measures to identify & mitigate risks within their area of responsibility. Progress on key matters and performance updates will be reported periodically to the Management.

Review & Amendment:

The Management shall review the policy on three-year basis and update as per requirement due to changes in law & regulation or any other urgent market conditions and revise the same, to keep the policy updated with necessary legal and internal changes. This Policy shall be made publicly available on the Company's website.

This Policy shall be effective from 01st June 2026.

(P. K. Naik)
Managing Director
